# AGENCY LANDSCAPE UPDATES

## Zero Emission Transportation

### OVERVIEW

Stay ahead of the curve in the realm of low-and-zero emission transportation funding with Agency Landscape Updates.

Our monthly subscription service delivers bi-monthly reports tailored to clients interested in securing various funding sources, including grants, rebates, prizes, and tax credits, to propel projects focused on deploying low-and-zero emission transportation technologies.

### WHAT'S INCLUDED

Each report provides comprehensive summaries of open, new, and upcoming funding opportunities, accompanied by essential eligibility criteria. Subscribers stay informed about federal and state grant recipients, upcoming workshops, and engagement opportunities with funding agencies.

#### THE REPORT FOCUSES ON KEY TECHNOLOGIES SUCH AS:

- Light-duty charging infrastructure
- Medium-and-heavy duty charging infrastructure
- Charging hubs
- On-road zero-emission vehicle deployment
- Off-road zero-emission vehicle deployment
- Vehicle-to-Grid/ Vehicle-to-Building
- Low-emission fuels and hydrogen refueling infrastructure
- Battery R&D and Manufacturing
- Fuel Cells R&D and Manufacturing
- Advanced Vehicle Technology Manufacturing
- Workforce development
