AGENCY LANDSCAPE UPDATES

Seaport & Airport Decarbonization

OVERVIEW

Stay at the forefront of seaport and airport decarbonization funding opportunities with Agency Landscape Updates. Our monthly subscription service delivers bi-monthly reports tailored to clients interested in accessing various funding sources, including grants, rebates, prizes, and tax credits, to advance projects focused on deploying technologies for seaport and airport decarbonization.

WHAT'S INCLUDED

Each report comprises comprehensive summaries of all open, new, and upcoming funding opportunities, providing key eligibility criteria to guide decision-making. Subscribers receive updates on federal and state grant recipients, upcoming workshops, and engagement opportunities with funding agencies.

TECHNOLOGIES COVERED

Our reports focus on a wide range of technologies crucial for seaport and airport decarbonization, including:

- Seaport and airport equipment
- On-port rail access
- On-site clean energy generation
- Energy Efficiency retrofits
- Microgrids
- Terminal improvements
- Off-road low and zero-emission vehicle deployment (cargo handling equipment, drayage trucks, locomotives)
- Shorepower emissions capture-and-control systems
- Low-emission fuels and hydrogen refueling infrastructure
- Offshore wind deployment
- Seaport and airport security measures
- Cybersecurity upgrades
- Workforce development

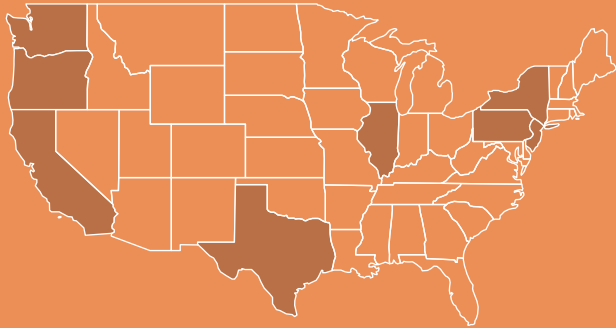

COVERAGE DETAILS

FEDERAL AND STATE OPPORTUNITIES

Track funding opportunities from the following states:

- | | |
|------------|--------------|
| Washington | New York |
| Oregon | New Jersey |
| California | Pennsylvania |
| Texas | Illinois |

PRICING: \$400 per month

Don't miss out on any funding opportunities with biweekly updates. Stay informed on the latest port and seaport incentives with Agency Landscape Updates, and position yourself at the vanguard in the seaport and airport sectors, driving the shift towards sustainable, clean technologies.
