

# AGENCY LANDSCAPE UPDATES

## Grid Resilience

### OVERVIEW

Agency Landscape Updates equips organizations with essential insights on funding for electric grid resilience.

Our specialized subscription service provides detailed bi-monthly reports on a range of financial supports available for grid enhancement projects.

### SERVICE FEATURES

#### TARGETED CONTENT

**Comprehensive Summaries:**

Detailed overviews of open, new, and soon-to-open funding opportunities, complete with key eligibility criteria.

**Regular Updates:** Information on federal and state grant recipients, as well as notifications about upcoming workshops and networking opportunities.

#### TECHNOLOGY & INFRASTRUCTURE FOCUS

**Technological Innovations:**

Coverage includes microgrids, demand-response software, community solar, and virtual power plants.

**Infrastructure:** Updates on funding for on-site clean energy generation, energy efficiency retrofits, vehicle-to-grid/building solutions, and cybersecurity.

**Advancements in Storage and T&D:**

Latest information on energy storage, as well as transmission and distribution upgrades.

**Workforce Development:**

Opportunities to enhance skills and expertise in the grid resilience sector.

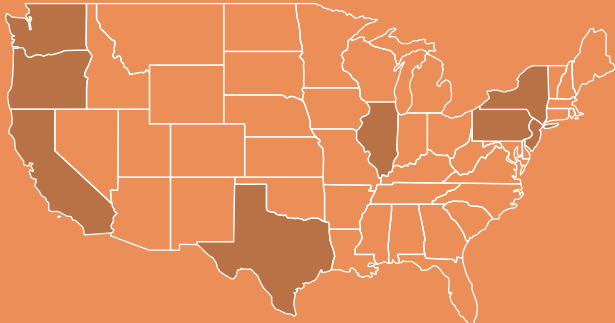

## COVERAGE DETAILS
